

ColorMax VIEW

TRANSLUCENT COLOR VERIFICATION

Verify color of translucent glass, plastic containers and films with on-line, high-speed accurate and reliable measurements. The ColorMax VIEW™ combines our field-proven, patented technology with innovative hardware to provide an easy-to-use system for measuring color in a wide variety of applications. Many products require tight control of color for aesthetics, product uniformity, and often to protect from the damaging effects of light. Establishing pass/fail criteria for the color characteristics of various translucent packaging materials and providing on-line verification eliminates defects and allows real-time quality control of these processes. The ColorMax VIEW system provides a reliable solution, allowing each and every item to be verified to meet its color requirement.

The ColorMax Application Program provides a comprehensive approach to sensor set-up, color channel management and real-time sample analysis display. Low color variation of 0.5% and a 20kHz switching frequency are the best specs in the industry, providing the performance required by demanding applications. The metal alloy case and glass lens provide robust construction expected in an industrial environment.

COLORMAX

EMX Industries, Inc.

4564 Johnston Parkway, Cleveland, Ohio 44128

P. 800 426 9912 F. 216 518 9884

Sales Inquiries: salesupport@emxinc.com **Technical Support:** technical@emxinc.com

Applications

- On-line, translucent packaging
- Pharmaceutical containers
- Food packaging
- Personal care products
- Glass containers
- Plastic bottles
- Translucent films

Design & Features

- Fast response time
- Highest resolution
- PC-based configuration software
- Programmable discrete outputs
- Serial data output
- Analog outputs (RGB)
- USB / RS232 interface
- Lock out operator from changing settings
- Exclusive M30 housing
- Laser-Mark position sensor
- Adjustable bracket configuration

Ordering Information

CM1000-R
ColorMax VIEW receiver

CM1000-T-25
ColorMax VIEW transmitter

LMX-300
Laser position sensor

Accessories

CM VIEW KIT
Accessory kit

CM1000B
Mounting bracket

**NOT INTENDED FOR USE IN
PERSONAL SAFETY APPLICATIONS.**

Functions

COLOR RECOGNITION
AVERAGING
TEACH
TOLERANCE
EXTERNAL TRIGGER
ILLUMINATION
DISCRETE OUTPUTS
RGB VALUE DISPLAY

Up to 2 channels.
1 to 64 readings.
RGB values from 1 to 100%.
0.5% to 50%
Level, Edge, Free Run.
0 - 100%
High or Low (Vcc or ground).
Bar graph - absolute value, Pie chart - relative value

Specifications

Light source
